

## Project Title: Customer Care Registry

Project Design Phase-I - Proposed Solution Fit

Team ID: PNT2022TMID14438

Define CS, fit into CC	<b>1. CUSTOMER SEGMENT(S)</b> Who is your customer? I.e. working parents of 0-5 y.o. kids	<b>6. CUSTOMER CONSTRAINTS</b> What constraints prevent your customers from taking action or limit their choices of solutions? I.e. spending power, budget, no cash, network connection, available devices.	<b>5. AVAILABLE SOLUTIONS</b> Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? I.e. pen and paper is an alternative to digital notetaking.	Explore AS, differentiate
	1. Customers who are not able to solve their own complaints of what they are facing. 2. Customers who do not know the solution of their questions they get.	1. This application will be supported by almost all the devices. 2. The solution we propose will have an alert via email feature, if expense exceed the given limit. 3. This solution also provides insights in a graphical way.	1. By reading the guidelines properly. 2. Offer a solution and give option whenever possible. 3. Address to issue within the company. 4. By communicating properly.	
Focus on J&P, tap into BE, understand RC	<b>2. JOBS-TO-BE-DONE / PROBLEMS</b> Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.	<b>9. PROBLEM ROOT CAUSE</b> What is the real reason that this problem exists? What is the back story behind the need to do this job? I.e. customers have to do it because of the change in regulations.	<b>7. BEHAVIOUR</b> What does your customer do to address the problem and get the job done? I.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)	Focus on J&P, tap into BE, understand RC
	1. The application allow the customers to find the solution for their queries. 2. They will be able to categorize their expenses. 3. They will be also given option for the general questions. 4. They also get the free solution where we provide our agents.	1. Lot of customers don't know the guidelines for their problems. 2. Some customers have a lack of knowledge. 3. Not knowing the answer to a question. 4. Not reading the guidelines properly.	1. Make sure he/she reads the guidelines properly. 2. Make sure they find a proper solution for their queries.	
Identify strong TR & EM	<b>3. TRIGGERS</b> What triggers customers to act? I.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.	<b>10. YOUR SOLUTION</b> If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.	<b>8. CHANNELS of BEHAVIOUR</b> <b>8.1 ONLINE</b> What kind of actions do customers take online? Extract online channels from #7	Extract online & offline CH of BE
	<b>4. EMOTIONS: BEFORE / AFTER</b> How do customers feel when they face a problem or a job and afterwards? I.e. lost, insecure > confident, in control - use it in your communication strategy & design.	1. To design a personal help desk using flask. 2. To provide insights on their queries in a graphical way.	<b>8.2 OFFLINE</b> What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development.	
	1. Customers can know to solve their solutions.		1. All their data are secured and being updated to cloud storage.	
	1. Customers can get the help from the help desk.		1. Make sure they find the best solutions for their complaints.
